Attendance sheets are turned in by 8:30 so that the parents of students who are absent are called to make sure it is an excused absence. We have conferences with the parents of the students who are consistently absent. Teacher of students identified At-Risk are made aware so that these students are monitored to ensure students are successful academically. The Retention Rate was 5.96% for all and at-risk students.

Schoolwide Program Plan

Villa Nueva Elementary School uses its Title I, State Compensatory, Bilingual and other funds to upgrade the entire instructional program by implementing school-wide programs as authorized under the provisions of Public Law 107-110, Section 1114.

Ten Schoolwide Components

1: Comprehensive Needs Assessment

The Site-Based Decision-Making (SBDM) Committee conducted a comprehensive needs assessment over a period of one year to determine the strengths and needs of students, staff, parental & community involvement, and facilities before deciding how to use available local, state, and federal budget allocations. Based on the CNA, the committee decided to concentrate on improving the passing rate of all students and student groups including Migrant, Bilingual, At-Risk, Dyslexia, GT, Title I, and Special Education on state assessments. The goal is to have 90 percent of all students and all student groups passing all parts of state mandated assessments for the 2014 - 2015 school year to increase the commended performance level in all content areas. Activity 1.1.13

2: Schoolwide Reform Strategies

To accomplish these objectives, the staff will use the budgeted funds to implement school-wide reform strategies that provide opportunities for all children to meet the State's proficient and advanced levels of academic performance, use effective methods and instructional strategies that are established on scientifically based research that (1) strengthen the core academic program; Activities 1.1.2 (2) increase the amount and quality of learning time, including the funding of an after-school tutorial/ summer school/ enrichment program, for students who are At-Risk and in need of continuity in their instructional program to be successful in the succeeding school year; Atctivity 3.1.1 (3) include strategies for meeting the educational needs of historically under served populations; Activities 3.1.1, 3.1.2 (4) include strategies to address the needs of all children in school, particularly the needs of low-achieving students, At-Risk, or not meeting the State student academic achievement standards; Activity3.1.2 (5) address how the school will determine if such needs have been met;Activity 3.1.2 and (6) are consistent with and are designed to implement the State and local improvements plans. Activities 3.1.1, 3.1.2, 3.1.3

3: Instruction by highly qualified professional teachers

Highly-qualified teachers will carry out the instructional program. Only teachers who are certified and who have met state testing requirements to teach the subjects/grade levels to which they are assigned will be hired by the school. In emergency situations, the school will consider teachers who have alternative certification. In addition to appropriate certification, teachers will be sought who are experienced and have been successful in previous assignments.

Activity 1.1.4

4: High-quality and ongoing professional development for teachers, principals, and paraprofessionals and, if appropriate, student services personnel, parents, and other staff

The school will provide access to high-quality ongoing professional development throughout the school year for all staff including teachers, principals, and paraprofessionals. Professional development activities will be geared to individual teachers' specialties, along with any other identified needs as determined through the staff, student and parent needs assessment surveys, administration classroom observations and evaluations, and/or district identified needs. Professional development will be conducted both at the school and the education service center as well as district conferences and workshops which will be intensive and sustained. Activity 1.1.1

5: Strategies to attract highly qualified teachers

An orientation for preschool children from Head Start to assist with the transition to **Villa Nueva Elementary** will be held annually in the Spring and for 5th grade students and their parents to assist with the transition into middle school. Activity 3.1.2

8: Measures to include teachers in the decisions regarding the use of academic assessments in order to improve the achievement of individual students and the overall instructional program

Teachers will be included in decisions regarding the use and selection of academic assessments to measure student performance. Teachers will use data obtained from state assessments as well as other instruments, including but not limited to the LION, TELPAS, and Progress Monitoring Assessment tests, to implement new instructional strategies, modify existing strategies and/or discontinue existing strategies to better address student needs as determined by use of these instruments. Activities 1.1.5, 1.1.8

9: Activities to ensure effective timely assistance for students who experience difficulty mastering the proficient or advanced levels of academic

achievement standards

10: Coordination and integration of federal, state and local services and programs

The school will coordinate and integrate federal, state, and local programs and services to maximize the effectiveness of these resources. Several of the strategies being implemented are jointly funded with Special Services and Title I Funds, e.g., after school tutorial programs. Professional Development activities are also paid for from Title I, Parts A and C, and Local Funds. Title I Funds along with 199, 162, 163, 166, and 212 funds are used to purchase supplemental instructional materials, media, and library resources used to improve and enhance the overall instructional program.

In addition to those described above, Migrant Funds are used to identify and recruit children of migratory workers for supplemental services designed to reduce the educational disruptions and other problems that result from repeated moves. At Villa Nueva elementary we use our migrant funds to purchase supplies and supplementary instructional materials used to implement and enhance the overall instructional program for the migrant students. PFS students receive additional supplemental materials and supplies as needed for TEIR II instruction.

Bilingual Funds are used to provide supplemental services to help ensure that children who are limited English proficient attain English language proficiency and develop high levels of academic attainment. Bilingual funds are used to purchase supplies, supplementary instructional materials and library resources used to implement and enhance the overall instructional program for the special education students.

The campus will also continue to provide the state mandated State Compensatory Education Program through campus as well as District funded initiatives. During the Spring semester at risk students will attend tutorial classes twice a week. At risk students will also receive in house tutoring throughout the 2017-2018 school year, instructional materials, software, and supplemental instructional services via State Compensatory Education funded personnel.

Special education funding provides supplemental services to eligible students as per Individuals with Disabilities Education Act (IDEA) identification requirements. In order to ensure a free and appropriate public education (FAPE) in a least restrictive environment (LRE), children who qualify for special education must receive services in accordance with a properly developed Individualized Education Program (IEP) as per federal and state special education guidelines. In addition, all Admission, Review, and Dismissal (ARD) committees will adhere to the policies and procedures outlined by the Texas Education Agency (TEA) in the ARD Committee Decision-Making Process for the Texas Assessment Program Manual and A Guide to the Admission, Review and Dismissal Process. Special education funds are used to purchase supplies, supplementary instructional materials and library resources used to implement and enhance the overall instructional program for the migrant students. Activities 1.1.6, 3.1.1, 3.1.2
